

PROTEK POWER NORTH AMERICA

FOR IMMEDIATE RELEASE

COMPACT 60W POWER SUPPLIES WITH MEDICAL SAFETY APPROVALS

April 27, 2009 - Hudson, MA – The new PM60 Series of AC/DC power supplies from Protek Power North America offer up to 64W of performance packed design and compliance to both EN60101-1 medical safety standards and EN60950-1 ITE safety standards. They are ideal for a variety of applications, including patient vicinity medical devices, dental electronics, and laboratory equipment.

The PM60 Series has a 90-264VAC universal input. Single, dual, and triple output models have voltages ranging from 3.3VDC to 48VDC. The compact 2" x 4" x 1.18" footprint makes the PM60 Series an ideal choice for designs with critical space constraints.

The Series boasts efficiencies to 88%, leakage current of 150uA maximum at 264VAC, and feature comprehensive protection circuitry including overvoltage and short circuit protection. EMC Performance meets Level B standards and units have an MTBF of 400,000 hours at full load.

Units are economically priced, starting at \$18.00 in OEM quantity, with delivery from stock to 8 weeks ARO. Full specifications are available on-line at www.protekwpowerna.com or contact our Sales/Technical Group at sales@protekwpowerna.com or (978) 567-9615
